

TUBOO

OUTDOOR/INDOOR BENCH SYSTEM

The bench system was designed using the traditional Japanese technique of hot folding bamboo. From a single metal tube it's possible to make the seat structure through simple cutting and bending, while minimising material waste.

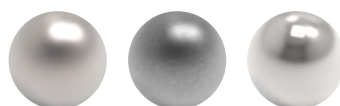

Standard model:

length: 1700 mm
width: 420 mm
height: 450 mm
tube diameter: 160 mm

Materials and finishes:

Stainless Steel BA AISI 316
Stainless Steel AISI 316 satin finish
Stainless Steel AISI 316 scotch-brite

RAL powder coated iron, on request

Tuboo's production technique, the length of each bench can easily be adapted to meet the customer's needs. For custom Tuboo, please request a consultation.
